this revised version includes a new essay on the contemporary history of integral mission a history that began with the latin american theological fellowship progressed within the lausanne movement is bearing fruit globally through the micah network and challenges evangelicals to address the major issues of our day by almost any measure a bold and confident use of the bible is a hallmark of christianity underlying such use are a number of assumptions about the origin nature and form of the biblical literature concerning its authority diversity and message however a lack of confidence in the clarity or perspicuity of scripture is apparent in western christianity despite recent sophisticated analyses the doctrine is ignored or derided by many while there is a contemporary feel to these responses the debate itself is not new in this excellent study mark thompson surveys past and present objections to the clarity of scripture expounds the living god as the guarantor of his accessible written word engages with the hermeneutical challenges and restates the doctrine for today

the great american mission traces how america s global modernization efforts during the twentieth century were a means to remake the world in its own image david ekbladh shows that the emerging concept of modernization combined existing development ideas from the depression he describes how ambitious new deal programs like the tennessee valley authority became symbols of american liberalism s ability to marshal the social sciences state planning civil society and technology to produce extensive social and economic change for proponents it became a valuable weapon to check the influence of menacing ideologies such as fascism and communism modernization took on profound geopolitical importance as the united states grappled with these threats after world war ii modernization remained a means to contain the growing influence of the soviet union ekbladh demonstrates how u s led nation building efforts in global hot spots enlisting an array of nongovernmental groups and international organizations were a basic part of american strategy in the cold war

however a close connection to the vietnam war and the upheavals of the 1960s would discredit modernization the end of the cold war further obscured modernization s mission but many of its assumptions regained prominence after september 11 as the united states moved to contain new threats using new sources and perspectives the great american mission offers new and challenging interpretations of america s ideological motivations and humanitarian responsibilities abroad

first published in 1941 the historic mission of jesus is one of the landmark texts on the life of jesus his relation to the father and his earthly task counter to the prevailing scepticism of the reliability of the synoptic sources chronicling jesus life cadoux presents a sweeping yet detailed illustration of the evidence while advancing theories for its interpretation that would go on to be significant facets of new testament study while not going to the same lengths as albert schweitzer cadoux nevertheless advances a thoroughly eschatological interpretation of jesus self perception he thus emphasises the nation wide character of his appeal his concern for the redemption of the gentiles through israel s fulfilment of the universalistic aspirations of the old testament his eager endeavour to avert a military clash between the jews and the roman empire and his early expectation of being accepted and loyally followed by his fellow countrymen as a whole the result is a prime early example of the revival of interest in the historical jesus on theological grounds

since the second world war the church s history has undergone a profound change after a long period in which the gospel had been embedded in a western european context it must now be seen in a pluralist setting and the full implications of its claims to universality have emerged this change is likely to be as significant as the first major change in christian history when the church developed from being a jewish community to an institution in the hellenistic world what does that mean for the mission and the pastoral life of the church christians especially roman catholics from the third world are well aware of the problems that have arisen solving them cannot just be an administrative matter there is a need to go right back to the roots of missionary work hence the importance of this new book strangely enough the only one of its kind it considers the traditions and dynamics that shaped israel s consciousness of its destiny
